## Earthquake Events, Ocotillo Wells, San Diego County

On 05/13/18 at 0837 hours, the Cal OES Earthquake and Tsunami Program Duty Officer (EQTP-DO) reported that in the past 24 hours there have been 36 earthquake events from 1.4M to 3.5M reported in the area 14 Miles ESE of Ocotillo Wells. Dr. John Parris of the California Geological Survey stated that this series is a release of tension at the intersection of the Superstition Hills Fault that runs north to south and the Elmore Ranch Faults that runs east to west. Events like this occur a couple times a year in the general Salton Sea area.

- The three largest events:
  - 05/12/18 at 1731 hours, verified 3.5M at a depth of 1.0 miles
  - 05/12/18 at 1737 hours, unverified 3.5M at a depth of 6.1 miles
  - 05/13/18 at 0508 hours, verified 3.4M at a depth of 0.5 miles
- There have been no reports of damage or injury.
- Per the EQTP-DO as of 05/13/18 at 1709 hours, the activity in the area has decreased in number of occurrences and magnitude since the last reporting period. She will continue to monitor and provide updates as the situation warrants.

## Weather Advisories, Watches, and Warnings currently active in California:

http://www.wrh.noaa.gov/hazardSummary/?state=ca

### **Active Weather Warnings, Watches and Advisories by County:**

http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1

# **WEATHER SYNOPSIS BY REGION**

### **NORTHERN CALIFORNIA**

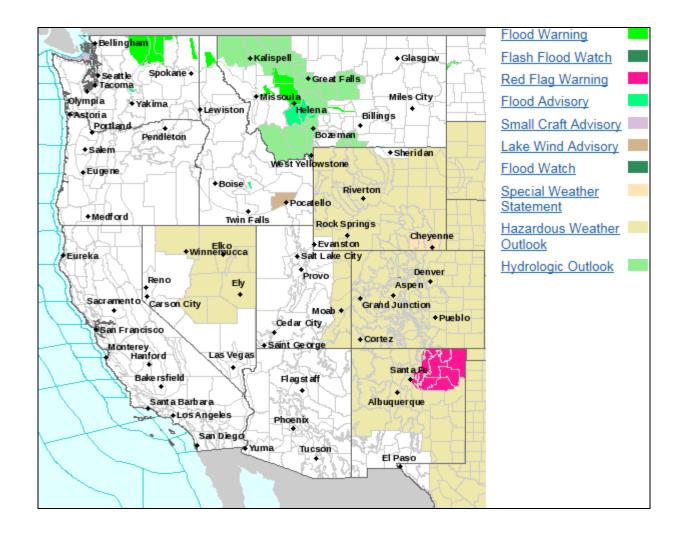

Marine clouds will continue along the coast for the next few days, with increasing chances for scattered showers and thunderstorms across the interior mountains, particularly on Tuesday. Mild temperatures continue for the next week. Afternoon and evening thunderstorms possible over higher terrain for much of this week.

### **SOUTHERN CALIFORNIA**

Cool conditions will continue for several days, then afternoon temperatures will warm to slightly above normal by next weekend. Night through morning low clouds will persist along the coast and into adjacent valleys through the upcoming week. Periods of marine clouds, gusty winds over the mountains and deserts, and below average high temperatures are expected into next weekend.

# **WEATHER MAP**

# **Cal OES LAW ENFORCEMENT MISSIONS**

### **Cal OES Law Missions**

- 2018-LAW-46706, 05/12/18, 2023 hours: The Air Force Rescue Coordination Center (AFRCC) advised of a Personal Locator Beacon (PLB) activation plotting to a vacant field east of the Rios Canyon Mobile Home Park in San Diego County. AFRCC advised the registered owner (R/O) of the device had not updated registration for several years. The Cal OES Law Enforcement Duty Officer (LDO) checked on the R/O's status and learned from a listed emergency contact they had not had any contact with the R/O for several years and could not provide any information. Update: 05/12/18, 2034 hours, LDO relayed the activation information to the San Diego County Sheriff's Department (SDSD) Dispatch who deployed units to the area. SDSD advised they ran a California Driver's License check and found no record on file for the R/O. At 2158 hours, SDSD advised they checked the area of the given coordinates and could not locate any signs of distress or the device. LDO updated AFRCC and it was agreed to follow up with Civil Air Patrol (CAP) on 05/13/18 if the device was still sounding. Update: 05/13/18, 0636 hours, AFRCC advised the device is still sounding and LDO requested CAP be activated to locate and silence. Update: 05/13/18, 0737 hours, AFRCC advised CAP Incident Commander (IC) assigned. Mission Ongoing.
- 2018-LAW-46688, 05/11/18, 0657 hours: The AFRCC advised of a possible ALNOT involving a Beechcraft Model 76, Tail# N803FC, with two souls on board scheduled to fly on 05/10/18, from Santee to Victorville and return to Gillespie Field in San Diego County. AFRCC advised ramp checks had been conducted with negative results. At 0723 hours, LDO requested CAP be activated and AFRCC opened mission #18M0289A. At 0756 hours, LDO spoke to SDSD, who confirmed they were assisting CAL FIRE with a fire that was believed to be from a small plane crash that occurred 05/10/18, in the area of Volcan Mountain. Based on the last known position of the ALNOT, it is suspected this may be the same plane which crashed last night. SDSD is on scene but cannot make access to the site for identification until the fire is stopped. LDO updated AFRCC. Update: 05/11/18, 1720 hours, SDSD advised ground teams made it to the suspected crash site but were unable to positively identify the plane or any victims due to access issues caused by the fire. SDSD advised the site has been secured and they will assist with Medical Examiner (ME) and NTSB investigators on 05/12/18. LDO updated AFRCC and requested CAP resources be released. Update: 05/12/18, 1410 hours, SDSD advised they are still unable to positively identify the plane or victims due to the current fire situation. SDSD is planning to respond and assist the ME and NTSB investigators in the early morning of 05/13/18. Mission Ongoing.

# **Cal OES MISSION TASKING**

### **Cal OES Missions**

- 2018-IREOC-45244: Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene Long-term assignment)
- 2017-SOC-44098: CalRecycle Debris Management Team in Ventura County (Coordinating)
- 2017-SOC-43821: DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

## Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
